Semangat tersebut terutama ditujukan untuk seruan atas upaya bersama melawan Covid-19 dan bangkit bersama secara lebih kuat paska pandemi. Hasil diskusi mengenai draft Deklarasi ASEP11 pada *Consultative Meeting* ini akan dibahas lebih mendalam dan diadopsi pada Sidang Pleno ke-11 ASEP serta diajukan menjadi rekomendasi bagi ASEM13.

Poin-poin draft Deklarasi ASEP11 yang dibahas mencakup berbagai isu tantangan dan ancaman global yang baru dan kompleks, seperti perubahan iklim dan pandemi Covid-19, serta urgensi solidaritas global dan komitmen bersama dengan pendekatan pertumbuhan ekonomi yang ramah lingkungan untuk mencari solusinya. Selain itu dibahas pula dalam draft Deklarasi, mengenai kerjasama multilateral dan kemitraan global untuk penyelesaian isu-isu keamanan, stabilitas, dan pembangunan berdasarkan hukum internasional.

Mayoritas peserta *Consultative Meeting* menyepakati beberapa poin dalam Draft Deklarasi. Namun terdapat satu paragraf tambahan baru usulan delegasi Viet Nam yang belum mendapat persetujuan. Paragraf tersebut membahas mengenai stabilitas, keamanan dan perdamaian Kawasan Asia-Pasifik melalui perspektif keamanan maritim dan kepatuhan terhadap instrumen hukum internasional seperti UNCLOS. Dikarenakan perdebatan yang cukup panjang dan tidak tercapainya konsensus, terutama dengan adanya penolakan dari delegasi Tiongkok, maka *Consultative Meeting* memutuskan untuk menunda

pembahasan “*Promoting Global Economic Recovery in the Era of COVID-19 and Beyond*”.

I Gusti Agung Rai Wirajaya dalam intervensinya membagikan pengalaman Indonesia yang menunjukkan kesiapan dalam mengatasi dampak pandemi karena jauh sebelumnya, telah mengesahkan sejumlah peraturan keuangan terkait UMKM, ekonomi digital, dan *e-commerce* serta Omnibus Law. Semua peraturan tersebut terbukti efektif dalam melindungi berbagai sektor strategis yang terdampak selama pandemi. Ditekankan pentingnya payung hukum yang dapat mendorong akselerasi pemulihan ekonomi domestik. Selain itu, mekanisme jaring keselamatan sosial nasional juga penting untuk memulihkan ekonomi domestik, dengan prioritas pemberian bantuan langsung tunai kepada masyarakat ekonomi menengah ke bawah yang merupakan kelompok paling rentan. Penguatan mekanisme pengawasan parlemen terhadap alokasi dan penyampaian stimulus fiskal juga berperan penting dalam mendorong pemulihan ekonomi domestik.

I Gusti Agung Rai juga menyampaikan seruan agar upaya pemulihan dari pandemi yang dilakukan harus memiliki tujuan yang lebih besar, yaitu pencapaian Tujuan Pembangunan Berkelanjutan secara bersama-sama. Dijelaskan pula mengenai peran Parlemen sebagai pemain kunci dalam membangun upaya pemulihan jangka pendek dan jangka panjang yang berkelanjutan melalui mandat konstitusional yang dimiliki dalam fungsi legislasi, anggaran dan pengawasan. Selain itu dijelaskan pula mengenai upaya parlemen Indonesia dalam membuat peraturan terkait energi terbarukan untuk mendukung komitmen Indonesia mencapai *Net Zero Emission* di tahun 2060. Arkanata menyampaikan bahwa Indonesia juga telah melakukan pembangunan *Food Estate* yang diharapkan dapat menjaga ketahanan pangan Indonesia, serta upaya merehabilitasi hutan untuk mencegah terjadinya krisis air yang sesuai dengan upaya Tujuan Pembangunan Berkelanjutan nomor 6, yaitu memastikan akses sanitasi dan air bagi semua (*Ensuring access to water and sanitation for all*). Dalam

upaya merehabilitasi hutan, pemerintah pusat bekerjasama dengan pemerintah lokal dan aktor non-negara untuk memastikan kebijakan yang dijalankan dapat bersifat inklusif dengan melibatkan berbagai pemangku kepentingan.

Arkanata juga menjelaskan bahwa Indonesia pun menghadapi berbagai tantangan lainnya seperti anggaran yang terbatas, masih kurang mumpuninya teknologi yang tersedia, dan sistem birokrasi yang kompleks. Dalam kondisi seperti ini, peran penting institusi parlemen dapat dioptimalkan di mana anggota Parlemen harus lebih intensif dalam menjalankan perannya untuk menyelesaikan berbagai tantangan ini melalui fungsi tradisional parlemen dalam bentuk legislasi, anggaran dan pengawasan.

Indonesia menyarankan agar anggota parlemen harus mengambil inisiatif lebih dalam mendorong kolaborasi antar negara karena tidak ada satu negara yang dapat menghadapi berbagai tantangan tersebut sendirian. Oleh karena itu, Indonesia menyerukan dukungan internasional yang lebih besar serta kerjasama yang lebih kuat melalui kerangka kerjasama bilateral dan multilateral untuk menyelesaikan sejumlah persoalan dengan semangat kebersamaan. Terutama kerjasama dalam bidang teknologi dan finansial untuk mitigasi dan adaptasi perubahan iklim.

➤ *Drafting Committee*

Pada Sidang *Drafting Committee*, Delegasi DPR RI diwakili oleh Anggota BKSAP **Arzeti Bilbina, SE., MAP** dari Fraksi Partai Kebangkitan Bangsa (F-PKB).

Delegasi Indonesia mengusulkan sejumlah masukan berupa perbaikan redaksi dan narasi untuk memperjelas penekanan paragraf serta pengidentifikasian berbagai tantangan dan ancaman yang tengah dihadapi dunia saat ini, seperti perubahan iklim dan isu epidemi, khususnya Pandemi Covid-19, sebagai “tantangan global yang bersifat kompleks”. Dijelaskan dalam penyampaian intervensi delegasi Indonesia, pengidentifikasian tersebut perlu dilakukan mengingat sifat dari berbagai tantangan dan ancaman yang relatif baru serta memiliki konsekuensi multi-dimensional dan membawa dampak global di seluruh dunia.

Dukungan terhadap Usaha Mikro, Kecil dan Menengah (UMKM) juga ditekankan oleh delegasi Indonesia, mengingat UMKM memiliki peran penting dalam menggerakkan 96% Bisnis di Asia dan menyediakan 2/3

lapangan kerja sektor swasta di Asia.

Delegasi Indonesia juga mendukung usulan yang diajukan oleh delegasi Viet Nam untuk memasukkan tambahan paragraf baru yang membahas tentang stabilitas, keamanan dan perdamaian Kawasan Asia-Pasifik melalui perspektif keamanan maritim dan pentingnya kepatuhan terhadap instrumen hukum internasional seperti UNCLOS. Dalam intervensinya, delegasi Indonesia menjelaskan bahwa sebagai negara kepulauan, Indonesia juga memiliki kepentingan untuk memiliki lingkungan yang damai, aman, dan stabil sebagai syarat untuk mencapai kepentingan nasional Indonesia. Terutama terkait realisasi tujuan pembangunan berkelanjutan dan pemulihan ekonomi-sosial paska pandemi.

Sejalan dengan usulan yang disampaikan delegasi Viet Nam, delegasi Indonesia berpandangan bahwa untuk mewujudkan kawasan Asia Pasifik yang damai, aman dan stabil mensyaratkan adanya kepatuhan terhadap UNCLOS atau Piagam PBB serta perlunya mendorong langkah-langkah dalam membangun kepercayaan yang sejalan dengan ASEAN *Outlook* mengenai Indo-Pasifik sebagaimana diinisiasikan oleh Indonesia dan menjadi kerangka utama dalam menjaga stabilitas kawasan.

4. Addressing ASEP11, **Samdech Akka Moha Sena Padei Techo HUN Sen**, Prime Minister of the Kingdom of Cambodia and the Chair of the 13th ASEM Summit

(ASEM13), stressed the relevance of ASEP and parliamentary diplomacy in promoting trust-based cooperation, advancing multilateralism for peace, security and shared prosperity, and contributing policy inputs on post-pandemic socio-economic recovery.

5. ASEP11 welcomed the outcome of ASEP10, held in Brussels in 2018, and commended the inter-parliamentary cooperation shaped by all the previous meetings of ASEP for collective efforts in addressing issues of common concern and interest, particularly the promotion of international peace, stability and sustainable development of the two regions over the past decades.
6. ASEP11 extended its profound congratulations to ASEM on the occasion of its 25th anniversary and applauded all the milestone achievements obtained under the three Pillars of Cooperation. ASEP welcomed the fruitful outcome of the High-level Policy Dialogue “ASEM at 25: Strengthening Asia-Europe Partnership in a Transforming World” held on 22 June 2021 in Hanoi, which emphasised the need to shape a bold vision for a stronger Asia-Europe Partnership. ASEP11 reiterated the importance of the Asia-Europe partnership that serves as a significantly important part for maintaining good relations and strong partnership between the peoples, parliaments, and governments of both regions towards achieving peace, stability, and sustainable growth.
7. Entering the third decade of the 21st century, ASEP, as an important part of the entire ASEM process, has a vital role to connect and empower the peoples of Asia and Europe with the aim to realise a people-centred and people-oriented inter-regional community and continuing the collaboration and commitment as stipulated in ASEP10.
8. ASEP11 recognised that the world is facing numerous new complex global challenges and threats such as climate change and epidemiological (epidemic) issues, particularly the COVID-19 pandemic. In this regard, the Meeting expressed its heartfelt sympathy and condolences over the tragic loss of lives caused by COVID-19 and reiterated the importance of global solidarity, concerted efforts and joint commitments to contain the pandemic and advance the post-pandemic socio-economic recovery with the environment-friendly economic growth models and approaches.
9. ASEP11 discussed key issues of common concern to the regions, particularly peace and security, human development, the post-COVID-19 socio-economic recovery, including digital transformation, digital economy, the digital divide, inclusive growth and development, and sustainable use of resources, including regional and sub-regional connectivity.

Proactive Parliaments for Peace, Security and Shared Prosperity

11. ASEP11 remained committed to an open, transparent, non-discriminatory, inclusive and rule-based multilateral trading system with the World Trade Organization (WTO) at its core. ASEP11 supported the 12th WTO Ministerial Conference (MC12) to achieve positive results, including starting the selection process of the Appellate Body as soon as possible, restoring the dispute settlement mechanism with the two-tier system and achieving substantial progress on the key negotiation tracks, keeping in mind the interests of developing countries.
12. ASEP11 stressed the need to further promote multilateralism and international order based on international law, anchored on the United Nations, in addressing both traditional and non-traditional security issues, particularly in the time of COVID-19 pandemic that human security shall be concerned. The Meeting also emphasised the importance of inclusive dialogue, trust building, adhering to the principle of mutual security and constructive diplomatic engagement, especially parliamentary diplomacy in preventing wars and conflicts. The Meeting acknowledged the role of parliaments in facilitating dialogues and consultations between and among parties concerned, based on the principles of mutual respect, mutual understanding, mutual trust, and mutual interest for peace and prosperity (M4P2).
13. Parliamentarians supported the maintenance of peace, stability and ensure maritime security and safety, to uphold freedom of navigation and overflight, unimpeded economic activities, and to combat piracy and armed robbery at sea, in full compliance with international law, in particular the UN Convention on the Law of Sea (UNCLOS), in the interest of all. ASEP11 encouraged the ongoing peaceful settlement of disputes in accordance with international law; to refrain from unilateral actions that are against international law and the threat or use of force in violation of the UN Charter, to respect diplomatic processes as well as the rights of coastal states in their maritime zones, and promote confidence-building measures.
14. ASEP11 recognised the significance of the digital economy, digital transformation and e-commerce, and called for coordinated and consolidated efforts against the misuse of information and communication technologies (ICTs) for criminal purposes. In this connection, ASEP11 emphasised the immediate need to address vulnerabilities and threats to security of and in the use of ICTs, and highlighted the importance of international cooperation and capacity-building. In this regard,

the Meeting underlined the importance of ensuring the integrity of ICT supply chain, security and privacy of the individuals. The Meeting urged the international community to work together to promote cooperation in the security of and in the use of ICTs in order to ensure an open, secure, stable, accessible and peaceful ICT environment for all, taking privacy and consumer interests into account and underlining the important balance between free flow of data and the protection of personal data. ASEP Parliamentarians took note of mutual benefits in widening their partnership to emerging areas of technology – IoT, AI, 5G, 6G and other futuristic technologies’ development.

15. ASEP11 emphasised the importance of human rights for the development and the freedom of each citizen, and gender equality, based on the rule of law and the democratic and accountable institutions and the participation of all relevant stakeholders in realising the long-lasting peace, inclusive and sustainable development. The Meeting appreciated the convening of the 4th ASEF Young Leaders Summit, which will be jointly organised by Cambodia and the Asia-Europe Foundation (ASEF), on the sideline of the ASEM13 summit. ASEP11 also underlined the important role of women in peace-making and peace building missions and encouraged ASEM Partners to promote and empower women in mediation and peace processes in line with United Nations Security Council Resolutions on Women, Peace and Security. In this connection, ASEP11 applauded Cambodia for the successful convening of the first Asia-Europe Forum on Women, Peace and Security held on 13-14 October 2021. ASEP11 also urged that all ASEM Partners put all efforts to promote the healthy development of the bodies and minds of the young people.

Containing COVID-19 and Promoting Post-Pandemic Socio-Economic Recovery

16. ASEP11 acknowledged that COVID-19 is the most challenging global public health issue of modern times that has serious ramifications on the socio-economic situation in ASEM Partners. The Meeting recognised the imperative of international cooperation to overcome socio-economic impacts from the pandemic, by strengthening the global health system and accelerating the Universal Health Coverage and ensuring an equitable and timely access to quality, safe, effective, affordable vaccines, medicines, vaccination certificates as well as other relevant medical supplies.
17. ASEP11 was concerned over the grave challenges in the implementation of the 2030 Agenda for Sustainable Development due to COVID-19. ASEP11 believed that global partnership was imperative to accelerate implementation of the 2030 Agenda. It therefore welcomed and supported the Global Development Initiative proposed by China, and encouraged governments to take and catalyse practical and efficient actions in areas such as poverty alleviation, food security, COVID-

19 and vaccines, financing for development, climate change, sustainable development and industrialisation, digital economy and connectivity so as to accelerate the implementation of the 2030 Agenda, promote stronger, greener and healthier global development, and build a community of development with a shared future where appropriate.

18. ASEP11 supported the work of the World Health Organisation (WHO) in preparing and responding to the pandemic. The Meeting also welcomed the outcome of the 74th World Health Assembly that took place on 24-31 May 2021 and acknowledged the importance of pursuing collaboration among ASEM Partners on interoperability and mutual recognition of national documents of vaccination against COVID-19.
19. ASEP11 urged ASEM Partners to cooperate more extensively on the production and distribution of safe, effective and quality-assured COVID-19 vaccines to provide equitable access to COVID-19 vaccination by continuing investment in scientific research and development, technological transfer, manufacturing and making vaccines available and affordable to all and as common global public goods, and to work cohesively to promote an inclusive and effective immunisation against the virus so that socio-economic recovery can be carried out faster and in a robust and inclusive manner. In this regard, ASEP11 called for the strengthening of national and multilateral approaches and international cooperation, such as the COVAX Facility within the Access to COVID-19 Tools Accelerator (ACT-A) and other relevant initiatives. ASEP11 acknowledged the importance of continuing work between states on mutual recognition of certificates of vaccination against COVID-19.
20. ASEP11 acknowledged the significance of legislative support of parliaments from ASEM Partners for regional recovery plans and other recovery initiatives of ASEM Partners, including the promotion of the Bio-Circular-Green Economy Model (BCG), as a means of sustainable recovery, with the goal of “rebuilding better” and greener in order to achieve a more sustainable and inclusive future, which are paramount to the economic revitalisation.
21. ASEP11 pledged to further promote multilateral cooperation to mutually support one another in the post-pandemic socio-economic recovery with a focus on areas of interest of developing countries through greater inter-regional trade liberalisation and customs and trade facilitation, free flow of capital, labour, technology, innovation, the essential movement of people and remittances, and the removal of technical and non-technical barriers to trade in goods and services in supply chains.
22. ASEP11 called for the promotion and protection of open multilateralism based on international law to maintain the momentum of economic globalisation, while reaffirming the commitment to maintaining stable and unimpeded global supply

chains, de-escalate trade tensions, mitigate escalating macroeconomic risks and uncertainties and preserve the socio-economic well-being of the peoples of both regions.

23. ASEP11 stressed the importance of multilateralism and the open, transparent, non-discriminatory, equitable, inclusive and rules-based multilateral trading system, with the World Trade Organization (WTO) at its core, for the promotion of global prosperity and the post-COVID-19 recovery. The Meeting iterated its commitment of refraining from any form of unilateralism and protectionist measures implemented contrary to international law, including the WTO agreements and the UN Charter. ASEP11 also encouraged WTO members to continue working together to facilitate and boost inter-regional trade and investment and enhance its efforts to achieve trade-specific targets in the Sustainable Development Goals (SDGs). ASEP11 urged WTO members to undertake comprehensive measures to effectively address points of friction and restore the WTO Appellate Body's full functioning.
24. ASEP11 underlined the necessity of strengthening the cooperation between the private sectors of the two regions to widen and deepen the linkages between foreign direct investment and Micro, Small and Medium Enterprises (MSMEs) in global production networks and supply chains. The Meeting also called for a deeper and more comprehensive cooperation on support for sustainable MSMEs, regional and inter-regional connectivity, public health, human resources development, education, food security, science, technology and innovation (STI), clean and green sustainable energy, creative industries and digital economy. ASEP11 acknowledged the important role of MSME in the post-pandemic socio-economic recovery, particularly through job creation. Hence, it is critical to encourage digitalisation, innovation and technology in promoting MSME resilience and business continuity, as well as fostering the development of digital start-up ecosystems.
25. ASEP11 recognised that the COVID-19 pandemic is deepening pre-existing inequalities on people in a situation of vulnerability and called on ASEM Partners to place women and girls at the centre of their efforts to recover, including investing more resources in social protection, women's entrepreneurship, and digital and financial literacy. The Meeting also committed to promoting an inclusive and people-centred digital economy to cope with the impacts of the COVID-19 pandemic and enhancing a sustainable and resilient growth for both regions.
26. ASEP11 emphasised the need to develop the social and cultural cooperation between the peoples of Asia and Europe. In this regard, ASEM should further promote educational and academia exchanges, people-to-people connectivity, and support the creation of an Asia-Europe cultural corridor in order to enhance peace, harmony, and social progress through connecting the many dots of cultural

significance, advancing cultural identities, promoting cultural connectivity and spurring economic prosperity to local communities. To this end, ASEP11 encouraged ASEM Partners to invest in the creative and cultural sector, the digitalisation of arts and cultures, and the creation of inter-regional virtual museums. ASEP11 recognised the need for cooperation in education sector, especially in the backdrop of challenges like COVID-19, towards developing resilient educational tools, digital literacy programs, skills-based education for students, underlining the significance of infrastructural resilience.

27. ASEP11 recognised that the tourism sector plays a fundamental role in employment opportunities and livelihood of the community as well as one of the key pillars of the economy. The impact of the COVID-19 pandemic has seen a complete halt in all aspects of the tourism sector. Therefore, ASEP11 called on ASEM Partners to put their utmost efforts in an inter- and intra-regional coordinating manner to ensure the stabilisation of sustainable international tourism.

Promoting a Green Recovery and Addressing the Water-Energy-Food Security Nexus

28. ASEP11 reaffirmed its commitment to fully implementing the 2030 Agenda for Sustainable Development and the Addis Ababa Action Agenda (AAAA) to eradicate poverty, to reduce inequality, to promote livelihoods and resettlement, and to build an inclusive and sustainable future for all. In this connection, the Meeting encouraged international development agencies to better align their resources to support and assist ASEM Partners, particularly developing countries to meet their SDG targets.

29. ASEP11 stressed the importance of the linkages between climate, nature and sustainable development. In this connection, ASEP11 called upon all parties to the Paris Agreement to deliver and strengthen accordingly their respective commitments implemented to reflect the principles of common but differentiated responsibilities and respective capabilities, in the light of different national circumstances, and to promote effective measures to ensure a balanced, inclusive, and sustainable recovery, taking into consideration a clean, green, and circular economy that optimises the full utilisation of resources.

30. Having observed increasing water scarcity, high energy use, and food security disruption posed by extreme weather events and the growth in global population and consumption, ASEP11 called for the development of effective measures in promoting the efficient use and sustainable management of water resources to meet the increasing demands for food and energy production that are key to achieving the SDGs.

31. ASEP11 recognised the water-energy-food security nexus as a mechanism for efficient and sustainable water management, in order to meet and balance the increasing demand of water usage for food and green energy productions and, meanwhile, protecting ecosystems. In this regard, ASEP11 urged parliamentarians to play an active role in promoting this nexus by providing the necessary supporting platforms and by acting as a catalyst for dialogue and collaboration among relevant stakeholders.
32. ASEP11 also drew attention to the importance of a sustainable ocean economy and of tackling challenges related to unsustainable use of living marine resources. Healthy and rich oceans and an efficient and sustainable ocean management are necessities to help meet the increased global food and energy demands. Furthermore, ASEP11 stressed the importance of long-term elimination of discharge of litter and micro-plastic to the oceans and the need to move towards green shipping.
33. ASEP11 called for closer collaboration for technology transfer, knowledge sharing, capacity building, and financial support towards the successful implementation of the water-energy-food security nexus. In this respect, the Meeting encouraged the Danube-Mekong Cooperation Initiative, which is the integral part of the ASEM Sustainable Development Dialogue, to serve as an experience-sharing and cooperation platform in relation to the efficient use and sustainable management of water resources and inclusive and sustainable development.
34. ASEP11 encouraged ASEM Partners to further strengthen cooperation and promote the exchange of best practices on sustainable urban development and smart city networks, and innovative village development that focuses on technology, education, cooperation, humanity and ownership, known as TECHO. In this connection, ASEP11 took notes of the TECHO100 Villages project, initiated by the Royal Government of Cambodia and endorsed by the Asian Cultural Council as a case study on promoting sustainable rural development through the synchronising and synergising of the cultural assets and economic comparative advantages of localities with the application of digital transformation.

Final Clauses

35. ASEP11 reiterated the relevance of parliamentary diplomacy and inter-parliamentary partnership in promoting peace, security, as well as inclusive and sustainable developments, and encouraged more interactions and effective institutional partnerships between ASEP and ASEM processes.
36. Realising the utmost significance of the infrastructure connectivity in bridging the

economic relations of the two regions, ASEP11 affirmed the significance of parliamentarians support for Greater Eurasian Partnership, the Belt and Road Initiative, the EU strategy on Connecting Europe and Asia, the Master Plan on ASEAN Connectivity 2025, efforts to address narrowing the development gap and regional integration across both regions and other relevant connectivity initiatives which could potentially benefit our peoples and contribute to the prosperity and sustainable development of the two regions.

37. Stressing the importance of mainstreaming the inputs of ASEP11 into the official ASEM process, the Hosting Parliament will report the outcomes of the Meeting to the ASEM Leaders at the ASEM13, which will be virtually hosted by Cambodia on 25-26 November 2021.

38. ASEP Parliamentarians expressed their appreciation to the National Assembly and the Senate of the Kingdom of Cambodia for the excellent organisation of ASEP11 and looked forward to participating in the ASEP12 in Europe in 2023.

INTERVENTION OF INDONESIAN DELEGATION

CONSULTATIVE MEETING OF THE DRAFTING COMMITTEE

Friday, 12 November 2021

***Honorable Chairperson,
Fellow Parliamentarians,***

Good afternoon, thank you for the opportunity. First of all, I would like to express our gratitude for the host country, Kingdom of Cambodia, to facilitate this virtual event amid so many restrictions due to the pandemic. I hope the Covid-19 pandemic will be over in the very near future and we can meet in person.

Before we proceed, allow me to introduce myself. My name is **Gilang Dhiela Fararez**, Member of the Committee for Inter-Parliamentary Cooperation of the House of Representatives of the Republic of Indonesia and Member of House Commission III dealing with Law, Human Rights and Security of the Indonesian House of Representatives. It is an honor to be able to join today's discussion.

The Indonesian House has received draft declaration which we think is very thorough and comprehensive. However, we have proposed several amendments to the draft declaration and we have sent it to the host secretariat. The proposed amendment consists of two parts. The first part is some minor revisions to the existing paragraphs and the second part is an additional wording and a new paragraph.

The revisions that we proposed are as follows:

- **On paragraph 7** we propose to remove "two regions" and replace it with "Asia and Europe". It is clearer and sounds better to explain Asia and Europe rather than using "two regions".

We also propose some minor revision on "of realizing" into "to realize" and for the grammatical error in "centred" into "centered".

- **On paragraph 13** we also propose some minor revisions on the word used in order to make the paragraph clearer and sounds better. The proposed revisions consist of; replacing "emphasized" with "emphasized on", changing the word "realising" into "the realization of".

**11th ASIA-EUROPE PARLIAMENTARY
PARTNERSHIP MEETING**

Phnom Penh, Kingdom of Cambodia, 16 November 2021

*"Strengthening Parliamentary Partnership for Peace and
Sustainable Development in the Era of Covid-19 and Beyond"*

- **On paragraph 14** also some minor revisions just to make the paragraph sounds better, such as removing the word "noted" and replace it with "acknowledged". Revise the last part of the paragraph into:

"the Meeting recognized the imperative of international cooperation to overcome socio-economic impacts from the pandemic, by strengthening the global health system and accelerating the Universal Health Coverage and ensuring an equitable access to vaccines, medicines, as well as other relevant medical supplies."

While for the proposed new wording and paragraph are as follows:

- To insert a new wording in the first part of paragraph 8 to be read as follows:

"ASEP 11 recognized that the world is facing numerous new **complex global** challenges and threats such as climate change and epidemiological (epidemic) issues, particularly the COVID-19 pandemic."

Insertion of "**complex global**" challenges is to explain and emphasize more on the character of challenges that are relatively new in nature, have multi-dimensional consequences and bring global impact throughout the world.

- We also proposed to add an additional paragraph In between paragraph 21 and 22 (new paragraph 22), which read as follows:

"22. ASEP 11 acknowledged the important role of MSME in the post-pandemic socio economic recovery particularly through job creation. hence, it is critical to encourage digitalization, innovation and technology in promoting MSME resilience and business continuity, as well as fostering the development of digital start-up ecosystems."

We are of the view that this paragraph is important as according to the Asian Development Bank, Micro, Small and Medium Enterprises (MSME) make up more than 96% of all Asian Businesses, providing two out of three private sector jobs in the continent. Therefore, it is vital to Asian countries to support the digitalization of MSME in order to make their businesses to be more resilience and survive the Pandemic as well as to keep up with the recent technological development.

Those are our proposed amendments to the draft declaration and we are open for discussion.

Thank you

Honorable Vice President of European Parliament and
Representative of President European Parliament.
Distinguished Delegates,
Ladies and Gentlemen,***

Thank you for the opportunity.

On behalf of the House of Representatives of the Republic of Indonesia, allow me to congratulate Hon. Mr. SAY Chhum and Hon. Mr. HENG Samrin and all Cambodian Parliamentarians for hosting such important and timely ASEP-11 Meeting.

It is an honor for us to share our thoughts on this key theme.

Distinguished Delegates,

In the past two years, much has been said and written about the impacts of Covid-19 on health, social and economic crises. Governments has increased its stimulus packages to help micro, small and medium Enterprises (MSMEs) weather the pandemic storm, attempted to keep international trade in motion and to moderate supply chain disruptions, and reopened international tourism.

Development in the Era of Covid-19 and Beyond"*

Despite these efforts, many have not found new jobs, revived their businesses, or crawled out of poverty. Clearly, the implications of the pandemic would be felt many years ahead. Furthermore, the pandemic implicates the achievement of sustainable development goals (SDGs) at risk.

Both Covid-19 and SDGs pose long-term effects in our existence and both require our utmost attention. Against such background, the Indonesian House of Representatives views that the timing for our stronger cooperation cannot be more auspicious. Our cooperation shall promote and maintain peace and human development.

Peace is an essential underpinning of development. Peace creates an environment which enables the society to thrive or improve. In the presence of peace, education and health structures flourish, systems to provide infrastructure have time to integrate, economic activities grow and climate change is in check. Furthermore, peace also allows us to build on our current health system advancement in Covid-19 prevention. Thus, peace brings stability that is key in overcoming challenges in achieving SDGs and future pandemic.

Fellow Parliamentarians,

The 2030 SDGs deadline is just around the corner, and we must grapple with healthcare improvement, economic contraction, poverty prevalence, education reform, and climate change control due to Covid-19 pandemic. Because of Covid-19, we are forced to think inward or protectionism, and yet we realize we cannot isolate ourselves to survive and thrive. We need each other to advance.

We urge Parliamentarians to strengthen our cooperation in tackling increasingly complex global challenges beyond economic recovery. We heighten our mandated duties such as regulatory support, budget allocation, supervision and monitoring of the implementation of SDGs related government programs.

In closing, through peace, stability and stronger cooperation on the basis of mutual-trust/mutual-understanding, we build up multi-stakeholder constructive dialogues in national, regional and international levels in sharing best practices, experiences and learning from each other on how to achieve the SDGs within our parliamentary domain. Let's attain the SDGs in time together.

Thank you for your kind attention

**Panel Discussion 1: Proactive Parliaments for Peace, Security, and
Shared Prosperity**

Hon. Mr. Drs. H. Darul Siska

(Member of the Committee for Inter-Parliamentary Cooperation/
Member of Delegation)

***Honorable Chairperson,
Distinguished Delegates,***

Good evening

First of all, allow me to extend our gratitude and appreciation to the Kingdom of Cambodia for organizing the 11th Asia-Europe Parliamentary Partnership Meeting.

My name is **Darul Siska**. I am a Member of the Committee for Inter-Parliamentary Cooperation of the House of Representatives of the Republic of Indonesia and a Member of the House Commission IX dealing with Demography, Health, Manpower and Transmigration Affairs

Let me begin by saying that saying prosperity can only be built on the basis of peace and security for all. Furthermore, to ensure sustaining peace and security need to ensure justice that it is preserved by safeguarding democracy and freedom. On the other word, peace and security are the very essential components to maintain regional stability that is really needed for ensuring prosperity of the people. It is because that stability contributes to the robust and sustainable economic growth and the overall development of the region.

For the past two years, the regions of Asia and Europe as well as the entire world have been severely impacted by the pandemic. The situation has been exacerbated, even in some marked by torn-war countries, by the unresolved political crises have taken place in several Asian region namely Palestine, Yemen, Syria, Myanmar, Afghanistan, and Lebanon. Without any little doubt, such

figure has created a threat to other stable countries in the regions. For instance that many European countries have been challenged by flow of the high number of refugees fleeing violent and bloodshed conflicts.

Since the first day of our independence, the Republic of Indonesia has been full committed to contribute to maintaining global peace and security. Our active and longstanding role in UN Peacekeeping is one of the testaments. We are also constantly supports UN initiatives aimed at strengthening peacekeeping to be fit for purposes in resolving peace and security challenges, and, therefore ready to render our support to the effective implementation of Action for Peacekeeping.

We are committed to become the true partner for world peace by focusing on the areas of peacekeeping, conflict prevention, sustainable development and counterterrorism. On the area of peacekeeping, we encourage a global ecosystem of peace and security and intends to advance the role of women in peacebuilding activities. On conflict prevention, we highlight the necessity for UNSC to build synergy and engage with other organizations to build conflict prevention mechanisms. In countering terrorism, we implement comprehensive approach that balances hard approach and soft approach which includes effort to address the root causes of terrorism, and de-radicalization, counter-radicalization and reintegration programs .

***Delegates,
Ladies and gentlemen,***

Today, our world is facing tougher challenges than ever due to deep disruption resulted from the pandemic. We share the risk of multitude of threats transgressing national boundaries and bringing impact to the global population. Building peace and adequate security amid the highly dynamic world of today and also efforts of post pandemic recovery requires multifaceted approaches and policy. It certainly involves diverse actors at national and international levels, including parliamentarian.

Parliamentarian can contribute to international architecture of peace and security as well as prosperity through various constructive ways in both conflict and post conflict situations. In a conflict situation, parliament could act as agent of peace and security. While in a post-conflict situation, parliament plays a significant role together with government to sustain peace and lay the

foundation of sustainable development. To a large extent, involvement of parliament should be aimed at safeguarding and advancing the principle of inclusivity in the atmosphere of democracy.

In a more specific context of our legislative role, there are three points that I would like to highlight in relation to promoting peace, security and prosperity: first, national legislation should be built on the culture of peace. It should contribute to build, cultivate and nurture peace itself. Second, there must an emphasis on national legislation that can promote effective implementation of SDGs, equitable distribution of development, and narrowing development gaps among countries in the region. Last, there should be national legislation that can facilitate effective implementation of various international commitments on peace and security, in line with national priorities and legislative framework. Indonesia in this regard already has various national legislations, including ratification of international conventions, and in the process of formulating a UN Act legislative framework.

To conclude, I really call members of Asia-Europe Parliamentary Partnership Meeting to hold and enhance their leadership in maintaining and ensuring peace and security in the regions and beyond through their embedded institutional authorities and capacities, aimed at building frank dialogues and avoiding acts of aggression and threat and use of force.

I fully believe that parliamentary cooperation is a catalyst of peace and to mitigate security threats to ensure the prosperity for all. Our engagement in this Forum serves as a platform to seek common perception on security issues of collective concern. Through our dialogue, I believe we could strengthen parliamentary diplomacy as an important means of maintaining peace and security, as well as achieving sustainable development and prosperity.

Thank You.

(Member of the Committee for Inter-Parliamentary Cooperation/
Member of Delegation)

***Honorable Chairperson,
Fellow Parliamentarians,***

Thank you for the opportunity.

My name is **I Gusti Agung Rai Wirajaya**. I am a Member of the Committee for Inter-Parliamentary Cooperation of the House of Representatives of the Republic of Indonesia and a Member of the House Commission XI dealing with Finances, national development planning, banking and non-bank financial institutions.

It is an honour for us to address this panel on such an important topic.

The rapid transmission of Severe Acute Respiratory Syndrome Corona virus 2 (SARS-COV2) has affected the lives of peoples and disrupted global and regional economy. In order to manage the impact of pandemic to our economy as well as to maintain the well-being of Indonesian citizen, the Government of Indonesia has passed regulations on State's COVID-19 finance policy and expansion of the state spending to provide for the national COVID-19 relief programs.

Prior to the pandemic, Indonesia have enacted several other legislations related to MSMEs, digital economy and E-commerce, which has proven to be effective in shielding those strategic sectors during the pandemic. An Omnibus Law on Job Creation has also been enacted in November 2020 by the House of Representatives of the Republic of Indonesia. The Omnibus Law aims to attract investment, create new jobs, and stimulate the economy.

*"Strengthening Parliamentary Partnership for Peace and Sustainable
Development in the Era of Covid-19 and Beyond"*

Based on our country experiences, we believe in the importance of having umbrella legislation that supports the acceleration of domestic economic recovery. We also put an importance to the urgency of the national government to strengthen national social safety nets mechanism including by prioritizing the delivery of cash aid to the poor and most vulnerable. We also believe in the necessity strengthen parliamentary oversight mechanism over fiscal stimulus allocation and its delivery, as well as to encourage our government to carefully and thoroughly assess the allocation of fiscal stimulus for each sector.

Aside from its detrimental impacts, there is a silver lining from the pandemic. COVID-19 has brought the opportunity for us to impose sustainability in the pathway of the recoveries so that we could recover better and stronger. Our recovery shall be enclosed in the greater purpose of achieving the SDGs and leaving no one behind. Parliament is part of key players to establish sustainable immediate and long-term recovery through our constitutional mandate of legislation, budgeting and oversight.

While at the same time Parliament shall also promote partnership and cooperation with and between all countries and with different stakeholders. We believe cooperation is important to strengthen global recovery, create resilience, and build prosperity for all.

Thank you

INTERVENTION OF INDONESIAN DELEGATION

**Panel Discussion 3: Addressing Water-Energy-Food Security Nexus
under Climate Change**

Delivered by:

Hon. Mr. Arkananta Akram, MP

(Member of the Committee for Inter-Parliamentary Cooperation/
Member of Delegation)

***Honorable Chairperson,
Distinguished Delegates,***

Good evening

First of all, allow me to extend our gratitude and appreciation to the Kingdom of Cambodia for organizing the 11th Asia-Europe Parliamentary Partnership Meeting.

My name is **Arkananta Akram**. I am a Member of the Committee for Inter-Parliamentary Cooperation of the House of Representatives of the Republic of Indonesia and a Member of the House Commission VII dealing with Energy, natural mineral resources, research and technology, the environment

The discussion on the water-energy-food security nexus under climate change is quite intriguing. In this crucial moment, I will be highlighting several points.

Potential impact of climate disaster:

We are all aware that climate change has become our concern in recent decades. We will be in a state of emergency due to climate disaster which has been predicted to occur in the near future if we are not able to achieve targets set out in the Paris Agreement. Climate change will have detrimental impacts on basic needs of humans such as water, energy, and food security.

Development in the Era of Covid-19 and Beyond"*

Recent predictions pointed out that at least 155 million people in 55 countries were in food crises or worse and more than 124 million people plunged into deep poverty. Conflict, the Covid-19 pandemic, economic downturn, and climate change exacerbate the situation further.

Indonesia program:

However, there is still a window for humans to lead out of this adversity. Kindly allow me to highlight some measures taken by the Indonesian government.

First, as part of our commitment to the Paris Agreement, we have targeted to add 23% of renewable energy sources in 2025. The Indonesia House of Representatives are currently working on a renewable energy bill to create an ecosystem that supports the development of new and renewable energy. This will enhance the implementation of Indonesia's NDCs and our Long-term Strategies in reducing GHG emissions to have Net Zero Emissions by 2060. Indonesia has also encouraged the implementation of biofuels and electrification in the transportation sector by 46% and 30% each.

Second, we are also in the process of developing a food estate as an effort to achieve food resilience and security. Food estate is one of our national strategic programs of 2020-2024 as an integrated food development system including sustainable farming, livestock breeding, community-based agriculture, and many related-sectors.

Third, we are also working closely with local government and non-state actors to implement the Land and Forest Rehabilitation program (RHL in Bahasa) as an effort to mitigate potential water crises. It is in line with the SDGs target number 6 on ensuring access to water and sanitation for all.

The remaining challenges:

Nevertheless, we are also facing several challenges ranging from limited budget, lack of technology, as well as a complex bureaucratic system. In this condition, we have to reemphasize the importance of parliamentary institutions. Parliamentarians must intensify their role in addressing this challenge through their traditional function in form of budgeting, oversight, and legislation.

Moreover, parliamentarians should also take more initiatives to push inter-country collaboration. We believe that there is no country that is able to tackle this issue alone. We also call for more cooperation and international support through multilateral as well as bilateral framework to address this challenge together.

Specifically, we need to take priority on financial and technology cooperation both through bilateral and multilateral ways in climate change adaptation and mitigation.

Thank you
